Another Pope of Peace

Scarcely had the newspaper accounts of the magnificent ceremony of the opening of the new Christian Church of Peace in Unterer Schwanenstadt, with Pope Pius XI at the presence of the Pope, when the rollers turned again with more news from Vienna. Among the last items published in the New York Times, a few days ago, and which had not been printed in our newspaper, was the statement that the new Pope of Peace, Pius X, had been asked by Fr. Donati to participate in the inauguration of the Church of Peace in Unterer Schwanenstadt. The new Pope, it was said, had expressed his pleasure in accepting the invitation, and had promised to be present at the opening ceremony of the new church, which is to be held next week.

Alma Mater "Loyal Sons and True"

Ted Broom, of the class of 1920, who is now an officer of the Virginia State Bank at Roanoke, has been elected to the Board of Trustees of the University. He has held the position of Secretary-Treasurer of the University since 1918.

Crossed Wires

By JAMES TURNER

When reaching out toward the horizon, the telephone wire seems to be an important symbol of the modern world. Yet, in recent years, the telephone wire has been the subject of numerous jokes and cartoons, highlighting its apparent vulnerability to various influences. One such example is the famous cartoon by Charles Addams, which depicts a telephone wire that has been invaded by a group of birds. The wire is shown with various characters perched on it, each with a different expression, and the caption reads: "When the birds come to the wire, they always make fun of it." This cartoon is a humorous example of how the telephone wire has become a symbol of the absurdity and complexity of modern communication.

The Children's Corner

By Uncle Skippy

Reprints available at the Children's Corner

Editorial: "Who's on first?"

Uncle Skippy, in his weekly column, has decided to take on the challenge of listing all the famous firsts in history. He starts with the first time a tennis player missed a shot, which he attributes to the famous September 6, 1915, match between Walter Haverstock and William McVicker. Uncle Skippy then goes on to list the first time a speech was given in the United States, the first time a movie was made, and so on. He concludes with a list of the firsts in the history of the telephone, starting with the first successful call made by Alexander Graham Bell in 1876.

The telephone succeeded!

This 'n' That

By JAMES TURNER

In the past two issues of This 'n' That, we have discussed the importance of the telephone in our daily lives. We have highlighted its role as a tool for communication, and have explored how it has transformed the way we interact with one another. In this issue, we will continue to explore the impact of the telephone, and will look at some of the current trends and developments in the field.

Spring Mural Program Made Up by LaFond

(The News, March 13, 1932)

The spring mural program at The Catholic University of America is made up by the school. The program is designed to provide a variety of murals for the enjoyment of the students.

Engineers Visit Burn Mills Plant

Last Monday afternoon, March 22, a group of engineers from the University of Wisconsin visited the Burn Mills Plant in Waukesha, Wis. The visit was arranged by Professor J. B. McGinnis, head of the Department of Chemical Engineering at the University of Wisconsin.

The engineers were met by the plant manager, who gave them a brief explanation of the operations of the plant. They then toured the plant and observed the various processes involved in the production of paper.

Conclusion

the conclusion of the editorial is that students should be encouraged to continue their studies in the summer months. The program is designed to provide a variety of murals for the enjoyment of the students.

The second page of the document includes an advertisement for Spring Mural Program Made Up by LaFond, Engineers Visit Burn Mills Plant, and a notice for the JAMES ALMY OFFICIAL MERCHANT INTERNATIONAL TAILORING CO., 107 Fourth Avenue, New York City.
